Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how Facebook organic marketing, paid media, and an agentic AI workflow connect to a measurable business objective.
- LO2: Create a reusable campaign brief and prompt contract that defines audience evidence, brand voice, tools, guardrails, and approval gates.
- LO3: Produce an aligned Facebook content calendar, post set, ad-copy matrix, and creative briefs with consistent brand voice.
- LO4: Design a Facebook campaign blueprint across campaign, ad set, and ad levels, including audience, budget, placement, and experiment choices.
- LO5: Calculate and interpret Facebook performance metrics, diagnose a result, and recommend a controlled next action from evidence.
- LO6: Design a governed agentic workflow for scheduling, responses, reporting, optimisation, and scaling with privacy and advertising safeguards.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
